15th InterRad Niigata 2017

Oct
22
(Sun)

Oct
27
(Fri)

Program

Oct/20 (Fri)
–Oct/22 (Sun)

Pre-conference Excursions

- A: Cenozoic Biostratigraphy, Chronostratigraphy and Paleo-oceanography in Boso and BANDAI SAN GEOPARK in Aizu
B: Triassic to Jurassic Radiolarian Events in the Panthalassa Ocean Recorded in the Mino Accretionary Complexes

Oct/22 (Sun)

Science-friendly show, Ice breaker

Oct/23 (Mon)
–Oct/24 (Tue)

Special symposium [Conveners]

- 1: Forms: An Interface between Function and Evolution [Y. Tokuda]
- 2: Biology and Paleobiology of Shelled Protista [K. Kimoto]
- 3: Cenozoic Paleooceanography of Marginal Seas [T. Itaki, Y. Okazaki, R.W. Jordan]
- 4: Paleooceanography of Tethys and Panthalassa [S. Takahashi]
- 5: Jurassic/Cretaceous Boundary [A. Matsuoka, G. Li]

Oct/25 (Wed)

Mid-day Excursions

- C: Itoigawa UNESCO Global Geopark (One of the First Global Geoparks in Japan) and TsubameSanjo Regional Industries Promotion Center
D: Cenozoic Radiolarian-bearing Outcrops in Tai'nai, Shimizu-en (Japanese garden) and Sake Brewery in Shibata

Oct/26 (Thu)
–Oct/27 (Fri)

General session (Radiolarian studies)

Any topics on radiolarians and radiolarian-based analyses

Oct/28 (Sat)
–Nov/1 (Wed)

Post-conference Excursion

- E: Observation of Living Radiolarians at the Sesoko Station in Sesoko Island and Permian–Cretaceous Radiolarian-bearing Sequences in Ie Island, Okinawa

Itoigawa, Niigata

Sesoko Isl., Okinawa

**DEADLINE
EXTENDED**

of early registration
& abstract submission
